

FEATURES

- Universal 80 305VAC or 100 430VDC Input voltage
- Accepts AC or DC input (dual-use of same terminal)
- Operating ambient temperature range: -40°C to +85°C
- Low standby power consumption, high efficiency, small size
- High I/O isolation voltage up to 4000VAC
- Output short circuit, over-current, over-voltage, over-temperature protection
- Operating altitude up to 5000m
- OVC III (designed to meet EN62477)
- Designed to meet UL/EN/IEC/BS EN62368, EN/IEC60335

LM150-23BxxR2S series is the ultra-small second-generation new industrial standard mental case-type power supply that Mornsun has innovated the industrial chassis power supply standard from the dimensions of size, performance, technology, and structure. It features universal AC input and at the same time accepts DC input voltage, cost-effective, low no load power consumption, high efficiency, high reliability and double or reinforced insulation. These converters offer excellent EMC design refer to EC/EN61000-4, CISPR32/EN55032, IEC60335, EN62477 standards and they are widely used in areas of industrial, LED, street light control, security, telecommunications, smart home etc.

Selection Guide								
Certification	Part No.*	Output Power (W)	Nominal Output Voltage and Current (Vo/Io)	Output Voltage Adjustable Range ADJ (V)	Efficiency at 230VAC (%) Typ.	Capacitive Load (µF) Max.		
	LM150-23B12R2S	150.0	12V/12.5A	11.4 -13.8	91.5	10000		
	LM150-23B15R2S	150.0	15V/10.0A	14.2 -17.3	91.5	6000		
,	LM150-23B24R2S	156.0	24V/6.5A	22.8 - 27.6	91.5	2400		
1	LM150-23B36R2S	154.8	36V/4.3A	34.2 - 41.4	91.5	1200		
	LM150-23B48R2S	158.4	48V/3.3A	43.2 - 52.8	92.0	600		
	LM150-23B54R2S	151.2	54V/2.8A	51.3 - 56.7	92.0	600		

Note: *1.Use suffix "Q" for bottom conformal coating and "QQ" for both sides conformal coating;

Note: *U_n Maximum input nominal voltage.

Remark:

1. This power supply does not meet the harmonic current requirements specified in EN61000-3-2.

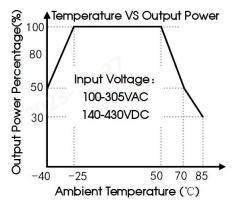

Please do not use this power supply under the following conditions:

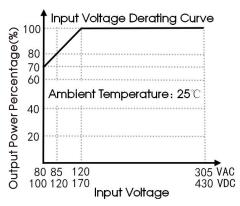

- 1) The terminal equipment is used in the European Union;
- 2) Supporting terminals are connected to a public power grid with 220VAC or a higher voltage that comply with the requirements of EN61000-3-2;
- 3) The power supply is installed in terminal equipment with average or continuous input power greater than 75W;
- 4) The power supply belong to a part of lighting system;

Exception, the power supply used in the following terminal equipment does not need to meet EN61000-3-2;

- 1) Professional equipment with a total rated input power greater than 1000W;
- 2) Symmetrically controlled heating element with a rated power less than or equal to 200W;
- 2. If no harmonic current is required or customers can solve harmonic current problems by themselves, this product can be used;
- 3.Unless otherwise specified, all specifications are tested under the input of 230VAC, rated load, and 25°C ambient temperature.

Product Characteristic Curve

Note: 1. With an AC input between 80-120VAC and a DC input between 100-170VDC, in addition to the voltage drop, temperature derating is also required. If it is used in a low temperature environment, please consult Mornsun FAE.

2.This product is suitable for applications using natural free air cooling; for applications in closed environment please consult Mornsun FAE.

Note:

- 1. For additional information on Product Packaging please refer to www.mornsun-power.com. Packaging bag number: 58220269;
- 2. Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25℃, humidity<75%RH with nominal input voltage and rated output load;
- The room temperature derating of 5° C/1000m is needed for operating altitude greater than 2000m;
- All index testing methods in this datasheet are based on our company corporate standards;
- 5. In order to improve the efficiency at high input voltage, there will be audible noise generated, but it does not affect product performance and reliability;
- 6. We can provide product customization service, please contact our technicians directly for specific information;
- 7. Products are related to laws and regulations: see "Features" and "EMC";
- 8. The out case needs to be connected to the earth $(\stackrel{(\bot)}{=})$ of system when the terminal equipment in operating;
- 9. The output voltage can be adjusted by the ADJ, clockwise to increase;
- 10. Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by aualified units.
