

FEATURES

- Input voltage range: 176 264VAC or 240 370VDC
- Accepts AC or DC input (dual-use of same terminal)
- Ultra low standby power consumption <0.75W @230VAC
- Operating ambient temperature range: -30°C to +70°C
- LED indicator for power on
- Operating up to 5000m altitude
- Output short circuit, over-current, over-voltage, over-temperature protection
- Built-in DC fan
- 3 years warranty

LM350-12Bxx series is one of Mornsun's enclosed AC-DC switching power supply. It features AC input and at the same time accepts DC input voltage, cost-effective, low no load power consumption, high efficiency and high reliability. These converters offer excellent EMC performance and meet IEC/EN61000-4, CISPR32/EN55032, EC/UL/EN62368, GB4943 standards and they are widely used in areas of industrial, LED, street light control, electricity, security, telecommunications, smart home etc.

Selection (Guide					
Certification	Part No.*	Output Power (W)	Nominal Output Voltage and Current (Vo/Io)	Output Voltage Adjustable Range (V)	Efficiency at 230VAC (%) Typ.	Max. Capacitive Load (µF)
EN/CQC/BIS	LM350-12B05	300	5V/60A	4.5-5.5	84	10000
EN	LM350-12B07	340	6.8V/50A	6-7.5	84	10000
	LM350-12B12	348	12V/29A	10.2-13.8	85.5	4000
	LM350-12B15	348	15V/23.2A	13.5-18	87.5	3300
EN/CQC/BIS	LM350-12B24	350.4	24V/14.6A	21.6-28.8	87	1500
-	LM350-12B36	349.2	36V/9.7A	32.4-39.6	88	1500
	LM350-12B48	350.4	48V/7.3A	43.2-52.8	89	470

Note: 1. *Use suffix "C" for terminal with protective cover, suffix "Q" for bottom conformal coating.

Under any conditions, the total power of the product should not exceed the rated power. When the output voltage is increased, the total output power cannot exceed the rated output power, when the output voltage is decreased, the output current cannot exceed the rated output current.
The product picture is for reference only. For details, please refer to the actual product.

	CS	IEC/EN61000-4-6 10 Vr.m.s	perf. Criteria A			
	Voltage dip, short interruption and voltage variation	IEC/EN61000-4-11 0%, 70%	perf. Criteria B			

Remark:

1. One magnetic beed should be coupled with the output load line during CE/RE testing.

2. Matching our filter FC-L06WX series, can meet the higher level of EMC.

3. The power supply does not meet the requirements of harmonic current stipulated in EN61000-3-2; This power supply is not suitable for the following situations. 1) The terminal equipment is used in the European Union;

2) The terminal equipment is connected to public mains supply with 220VAC or greater rated nominal voltage that mandatory to meet the requirements of EN61000-3-2;

3) The power supply is installed in terminal equipment with average or continuous input power greater than 75W;

4) The power supply belong to a part of lighting system;

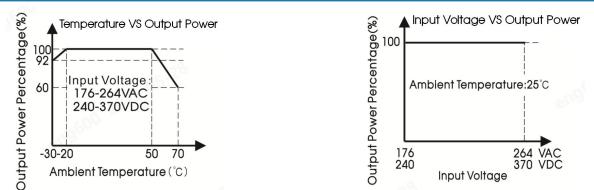

In addition, the power supply can be used in the following terminals which do not need to meet EN61000-3-2;

(1) Professional equipment with total fixed input power greater than 1000W;

(2) symmetrical controlled heating element with rated power less than or equal to 200W.

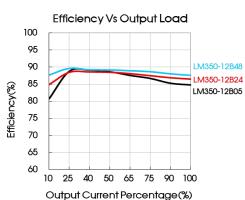

4. If no harmonic current is required or customers can solve harmonic current problems by themselves, this product can be used.

Product Characteristic Curve

Note: This product is suitable for applications using forced air cooling; for applications in closed environment please consult Mornsun FAE.

Note:

- 1. For additional information on Product Packaging please refer to www.mornsun-power.com. Packaging bag number: 58220115;
- Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25°C, humidity<75%RH with 2. nominal input voltage and rated output load;
- The ambient temperature derating of 5° C/1000m is needed for operating altitude greater than 2000m; 3.
- 4. All index testing methods in this datasheet are based on our company corporate standards;
- 5. In order to improve the efficiency at high input voltage, there will be audible noise generated, but it does not affect product performance and reliability;
- We can provide product customization service, please contact our technicians directly for specific information; 6.
- Products are related to laws and regulations: see "Features" and "EMC"; 7.
- The out case needs to be connected to the earth $(\frac{1}{2})$ of system when the terminal equipment in operating; 8.
- 9. Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by qualified units.
- The power supply is considered a component which will be installed into a final equipment. All EMC tests should be confirmed with the 10. final equipment. Please consult our FAE for EMC test operation instructions.
