## AC/DC 90W Enclosed Switching Power Supply MORNSUN® LM90-12A15

#### **FEATURES**

- Special switching power supply designed for professional laser galvanometer industry
- Universal 165 264VAC or 180 370VDC Input voltage
- Operating ambient temperature range: -30°C to +70°C
- Low ripple & noise
- High I/O isolation test voltage up to 3000VAC
- Operating altitude up to 5000m
- Output short circuit, over-current, over-voltage protection
- Design refer to IEC/UL62368-1, EN60335-1, EN61558-1, GB4943.1

LM90-12A15 series is one of Mornsun's dual output non-isolation enclosed AC-DC switching power supply. It features universal AC input and at the same time accepts DC input voltage, cost-effective, high efficiency, high reliability and double or reinforced insulation. These converters offer excellent EMC performance and meet IEC/EN61000-4, IEC/UL/EN62368, GB4943 standards and they are not only specific used in the laser galvanometer industry, but also widely used in current sensors, motors and other fields.

MORNSUN Guangzhou Science & Technology Co., Ltd.

# AC/DC 90W Enclosed Switching Power Supply MORNSUN® LM90-12A15

Over-voltage Protection (Vo1) <22VDC (Hiccup, self-recover)

Note: "The "Tip and barrel method" is used for ripple and noise test, output parallel 47uF electrolytic capacitor and 0.1uF ceramic capacitor, please refer to enclosed Switching Power Supply Application Notes for specific information.

### **Product Characteristic Curve**

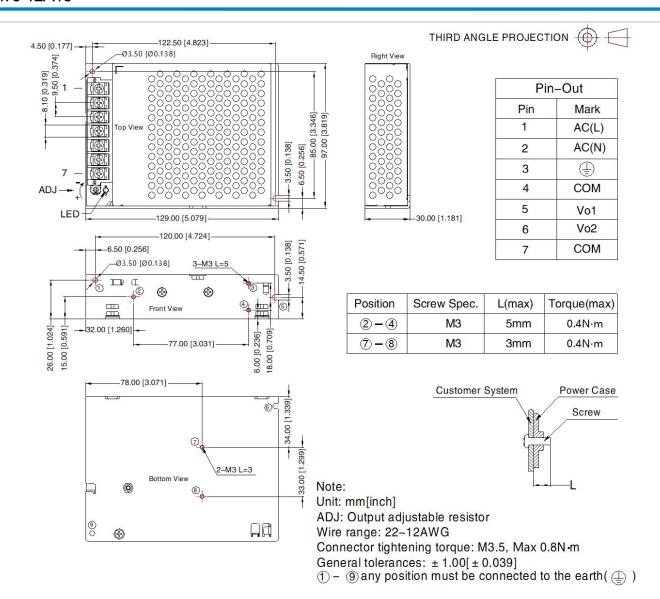

Note: This product is suitable for applications using natural air cooling; for applications in closed environment please consult Mornsun FAE.

#### Note:

- For additional information on Product Packaging please refer to www.mornsun-power.com. Packaging bag number: 58220120; 1.
- Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25°C, humidity<75% RH with 2. nominal input voltage and rated output load;
- The room temperature derating of 5°C/1000m is needed for operating altitude greater than 2000m; 3.
- All index testing methods in this datasheet are based on our company corporate standards; 4.
- 5. In order to improve the efficiency at high input voltage, there will be audible noise generated, but it does not affect product performance and reliability;
- We can provide product customization service, please contact our technicians directly for specific information; 6.
- Products are related to laws and regulations: see "Features" and "EMC"; 7.
- The out case needs to be connected to PE  $(\stackrel{\triangle}{=})$  of system when the terminal equipment in operating; 8.
- 9. The output voltage can be adjusted by the ADJ, clockwise to decrease;
- Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by 10. qualified units.
